The Citizen's Water Monitoring Network (CWMN) is administered by the Neponset River Watershed Association in cooperation with the US EPA and MWRA.

Funded in part by Massachusetts Department of Environmental Protection, Boston Water and Sewer Commission and The Copeland Family Foundation.

Water quality conditions at sampling locations are classified according to the Massachusetts Surface Water Quality Standards for Class B waters using the parameter, fecal coliform bacteria (cfu/100 ml) (314 CMR 4.00).
