Town of Canton
Water-Efficient Clothes Washer Rebate Program
Conditions and Guidelines

Special grant-funded program, limited time only! Rebate applications accepted from February 24, 2020 through June 1, 2020. Only clothes washers replaced after February 24, 2020 are eligible.

The washer must have an “integrated water factor” of 4.0 or less as shown on the Energy Star washer list (see www.energystar.gov and look under “products”). ***Not all Energy Star washers qualify.***

Water factor is the number of gallons used per cubic foot of laundry capacity. For maximum savings look for models with a water factor lower than 4.0. Some models have water factor ratings as low as 2.7.

Only new washing machines, purchased for personal use and not for resale, are eligible.

The applicant must be a residential water customer of record for an active, non-delinquent account. The washer must be installed at the property where the water is delivered.

The property owner is solely responsible for ensuring proper installation.

A copy of your receipt must accompany the rebate application.

A rebate of up to \$75 for washer purchase costs will be issued as a credit on your next water bill.

One washer rebate per household.

The Town will perform a site visit to verify installation prior to issuance of a rebate.

The Town is not responsible for washer performance or estimated savings, and does not provide any warranties or guarantees, express or implied.

Old washers must not be reused and must be properly disposed of, recycled if possible. Disposal is the responsibility of the applicant.

The Town reserves the right to amend and/or discontinue this program without notice or when funding is exhausted.

This offer does not apply to new construction.
